Cocktails

There are many debates as to when the first published use of the term “cock-tail” came about; the most popular reference being in The Balance and Columbian Repository in 1806. In the article it surmised that a cocktail was made from a recipe of spirits, bitters, sugar & water. In this sense, the drinks had moved on from the Punch dating back to 1500s and something more complex, interesting and damn right tasty.

The History of bar-tending, their use of spirits and how many of today’s loved cocktails have come about are fascinating. In this cocktail list we showcase a mix of classics and contemporaries, a much loved house specialty list that is forever evolving and that we hope do some justice to the craft that many bartenders have achieved before. If a cocktail is not listed, please chat with our friendly bar team or your lovely servers and we’ll be sure to whip you up a delightful libation.

Gibbston Valley Wines

At Jervois, we have the pleasure of showcasing a selection of wines from Gibbston Valley's wine library. Gibbston Valley Winery are one of a handful of pioneers of the Central Otago winemaking industry. Their founder Alan Brady, planted the first vines in the region, back in the early 1980's. Enjoy these beautifully handcrafted wines that we have paired with our food.

GIBBSTON VALLEY RESERVE: Capturing the indefinable when place, vine and vintage work in harmony. To be included in a Gibbston Valley Reserve, the fruit must be something very special. Largely, this amounts to a piece of the undefinable bestowed on a few rows of fruit in a great vintage.

The **CHINA TERRACE** Vineyard is located in the Bendigo sub region of Central Otago. Gently sloped on the lower edge of a large terrace (named China Terrace. Being over 320m, it retains a coolness relative to Bendigo's natural warmth. This, and the complex accumulation of loess, clay and schist in its soil, gives wines of fresh, bright complexity. this wine has a red fruited nature, complex and sweet fruited, with a savoury tannin profile.

Organically run, the **SCHOOL HOUSE** vineyard gives spectacular wines - and views. Its North facing slope is located on glacial terrace, 420m above sea level, providing a crucial barrier against frost. Complex glacial sands and schist combine with the slope to ensure low fertility, moderate vine growth, and small concentrated bunches. Cooler temperatures by day elongate ripening, meaning wines gain a remarkable intensity, elegance and perfume.

The **GLENLEE** vineyard planted by Californian visionary Gary Andrus that believed in close planting Burgundian principles is close planted with 6000 vines per hectare on what was once a sheep station. In the highest corner of this north facing vineyard on the eastern perimeter, there is a band of glacial outwash and river gravels that ensures vine balance, an open canopy, lignified stems and ripe fruit. This shows Gibbston's fruit clarity at its best, combining fragrance with concentration and structure. This is derived from the close planting and a high proportion of whole clusters used in the ferment.

LE MAITRE is grown from mature vines from Gibbston Valley's original Home Block vineyard at the western entry to Gibbston. planted by Alan Brady in the early 1980's. It is a low production wine made from this historic dry farmed, organic vineyard. The vineyard is not irrigated, and has BioGro Organic certification. Soil is shallow loess over a mix of schist and gravel. The vines have a natural balance born from age and a deep root profile. The sub regional influence of Gibbston gives the wine transparency and elegance.

Coravin – By the Glass

The CORAVIN™ Wine System gives us the freedom to pour and enjoy a glass of wine from any bottle at any time. By inserting a medical grade needle through the cork and injecting 99.9% pure argon gas, the bottle is pressurized and wine is being pushed out. When finished, the needle is pulled out and the cork reseals due to its elasticity, no air has gone into the bottle and the remaining wine can be preserved and continue to age.

Coravin™ also has developed their own screw caps, designed with a silicone membrane. The screw cap reseals itself after being accessed using a Coravin™ Wine System, just like a natural cork would. Below is our selection of wines we would like to showcase you with our Coravin™ system.
